

Population and Social Changes in An Indian Village

By A. Aiyappan, K. Mahadevan

Mittal Publications, New Delhi, 1988. N.A. Book Condition: New. Xvi+290pp Micro-socio-demographic study is highly valuable for understanding the realistic nature of influence of diverse and comprehensive factors that facilitate or hinder the process of total development. Historically studying such factors, since Independence over a quarter century period further enhance the relevance of the study. Thanks to the bench-mark studies available on Mangadu, from the renowned Poonamallee Public Health Institute and the pioneering work of Prof. S. Chandrasekhar, a rare opportunity was available to the authors, to peep into the past development process of this village in a holistic manner. In India this volume is the pioneer in this series and hence valuable not only to policy makers, planners, development administrators but also to a galaxy of social scientists, demographers and students of society and culture. The focus of the study include major demographic, economic, social, public health and family planning dimensions of development in a historically important, demographically and geographically major and culturally diverse village through a quarter century period. A combination of Anthropological and survey approaches together strengthened the depth and coverage of the study. Peri-urban location of the village near Madras city and several other factors together transformed...
